***** SAFETY REMINDER*****

NO LIVE ROUNDS allowed in the Classroom/Safety Area of the IDR AT ANY TIME. Any member or guest found in violation will be subject to disciplinary action from the BOD and may risk suspension from range use and/or expulsion from the club. Carry firearms must be holstered at all times in the Classroom/Safety Area.

Indoor Range (IDR) – MBSC shares usage with the Entergy Security Force. Please check schedules published in the newsletter and posted around the club for times when the IDR will not be available to members.

1. NO RIFLES except .22 caliber rim fire.
2. Handguns – Any caliber up to .45.
3. NO MAGNUM ammunition.
4. MAXIMUM VELOCITY 1300 fps; If unsure of ballistics, do not use.
5. Leaded, Jacketed, or Semi-Jacketed ammunition allowed.
6. No black powder.
7. Eye & Ear protection must be worn at all times while in Range.
8. Paper targets ONLY.
9. No handling of firearms while anyone is downrange.
10. No loaded firearms while range is in "SAFE MODE"
11. No alcohol or drugs allowed on range at any time
12. Range Fees; \$2.00 per member visit; \$5.00 escorted guests of members (EVERY MEMBER MUST SIGN IN EVERY TIME)
13. Non-members may only use the range when a member is present.
14. Indoor Range keys - FOB as of Jan. 2,2008
15. Follow posted instructions for ventilation and heating systems
16. It is recommended that all shooters wash their hands after shooting.
17. All members are asked to check the newsletter for updated information and schedules regarding Rental Range usage.
18. MBSC members are prohibited at all times from using the scaffolding located on the Rental Range.
19. No shooting at breakable objects such as glass.
20. All shooting shall be in the direction of the backstops
21. Adhere to the same 'shooting etiquette' as on Rifle Range

IDR Ventilation and Heating Systems Operation

Ventilation

The IDR RANGE has 4 HEPA Filter Air Scrubbers and 3 exhaust fans - ALL of which must be used whether there's an individual shooter on the line or a full line.

All users - switches on back wall of range (behind shooting stations) marked with green dots are to be turned on prior to shooting, and off when done. PLEASE DO NOT FORGET

Heating

There are two furnaces and one restroom baseboard heater

Classroom furnace – recirculation

The Classroom furnace thermostat is located adjacent to the scrubber closet in the classroom area just beside the pressure gauges. Set the desired room temp per your normal household routine by adjusting thermostat when occupied, **then set it back to 55f when departing.**

Range Furnace – 100% fresh air

The Range furnace thermostat is located on back wall behind shooters just above the main switch panel and will operate in fan mode or heat mode/auto-fan. If you want heat/auto-fan, just adjust the thermostat dial to preferred temp. and blower will come on automatically and produce heat/air until room set temp is satisfied. If only the blower fan from the range furnace is required and no heat is needed, leave thermostat alone and flip switch marked with green dot (range furnace fan) and you'll get 100% fresh air – no heat. **When departing, turn thermostat back to 55 f if used, and fan only switch back to off.**

Restroom Baseboard Heater – electric

During colder months- set dial to medium. KEEP DOOR CLOSED.
